

Policy and Procedure Manual *for Occupational Medicine*

Whether your Occupational Health program is new or established, a Policy and Procedure manual is a necessity. If you need an entirely new manual, need to update a few policies, or need assistance in customizing policies and procedures to your own program, this manual can help you. This 500+ page manual includes policies, procedures and forms in key operational categories and can greatly shorten your time in updating or creating policies, and provides the templates that you need to customize these policies to your own organization. Why go through the pain of creating this information from the beginning? Why not give yourself a jump start today?

- Management and Administrative
- Front Office Business Operations
- Patient Care Services
- Care Coordination
- Risk Management and Prevention Screening Services
- Drug and Alcohol Testing Guidelines
- Performance Improvement
- Occupational and Environmental Medicine Resources
